## EDUCATION

### Bennett University - The Times Group

Bachelor of Technology in Computer Science

Greater Noida, India

Aug. 2023 – Present, CGPA: 8.7/10

### St. Michael's Senior Secondary School, Satna

CBSE High School (Science Stream)

Satna, India

Feb. 2023, 90.2%

## EXPERIENCE

### Software Engineer Intern

Citecat

Aug 2025 – Dec 2025

Bangalore, India (Remote)

- Architected and developed a full-stack **Chat with PDF** feature using text embeddings, onboarding 200+ users within the first month of launch.
- Developed an optimized **LaTeX compiler** achieving **15% faster** compile times compared to Overleaf, with extended library support and a modern UI.
- Built and optimized scalable APIs using **Python + FastAPI**, reducing latency and supporting growing user demand.

### Full Stack Developer Intern

AlphaTribe

Feb 2025 – Aug 2025

Delhi, India (Remote)

- Spearheaded the development of the web platform using Next.js and MongoDB, achieving **40%** faster page load times and a **15% boost** in user retention.
- Architected and implemented AI Insights and an assistant bot, logging over **900** daily chats.

### SDE Intern

Yogasana Bharat

Nov 2024 – Feb 2025

Delhi, India (Remote)

- Delivered a scoring platform now adopted as the official **permanent solution for international-level championships**.
- Built and integrated a real-time internal scoring tool using **WebSockets**, reducing judge scoring update latency by **50%** during live events.
- Ensured data consistency across modules by handling **2000+** participant entries during the **Asian Games Championship**.
- Managed CI/CD pipelines, decreasing manual intervention by **70%** and increasing release frequency.

## PROJECTS

### Magic Canvas - AI-Powered Calculator | Full Stack Development

- Built an AI canvas that detects hand drawn diagrams to solve Physics and Math problems in real time.
- Achieved **1000+** organic visitors within 48 hours of launch via viral traction on X.

### FundedFriday | Full Stack Development

- Achieved **10K+** visitors with 300+ successful conversions totaling **\$20K+ USD** in sales in first day of launch.
- Implemented a robust **affiliate management system** including tracking, reporting, and an **internal admin dashboard** for analytics and outreach.
- Integrated **payment gateways supporting multi-currency and crypto**, securely handling transactions.

### Live Collab Docs | Full Stack Development

- Developed a real-time collaborative document editor using Liveblocks, garnering **1000+** users.
- Implemented live editing, annotation, and reaction features.

## TECHNICAL SKILLS

**Languages:** C/C++, JavaScript/TypeScript, Python, HTML/CSS

**Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, Redux

**Backend:** Express.js, Hono, Firebase, Supabase, Docker, FastAPI

**Databases:** MongoDB, PostgreSQL, MySQL

## AWARDS

**Won 1st** place in GeeksforGeeks DSA competition, ranked among top 500 participants in the university.

**Awarded** by the **Dean of Computer Science and International Affairs** for redesigning Bennett University's annual fest website, increasing student engagement by **40%**.
